SENATOR PAT HARRISON FLAYS EXTRAVAGANCE UNDER HOOVER TERM

Shows Hoover Regime In Reply to Former President's Criticisms—Says Hoover Administration Spent \$2.70 For Every Dollar Taken in By Government.

In the Hoover administration \$2.70 was spent for each dollar taken in, Senator Pat Harrison declared at Perth Amboy, N. J., Monday night in remarks at a political rally, in answering former President Herbert Hoover's criticism of the administration's method of bookkeeping, according to a press telegram.

"How inconsistent, from a Republican standpoint," Senator Harrison declared, "for candidate Landon to demand the fact that at times under the present administration we were spending two dollars for every dollar taken in."

The really important thing to consider, Senator Harrison told the assembly, are the accomplishments that came from the two expenditures. "While the Republican administration," he declares, "was spending in percentages more than the present administration, the country was going deeper into a depression. Expenditures by this administration have brought the country back to a sound economic condition. "Senator Harrison expressed his opinion that this was due to the courage of President Roosevelt in meeting the situation in a big way in avoiding halfway measures.

Senator Harrison, who is chairman of the Senate finance committee, then took up Governor Landon's statement to the effect that he will balance the budget if elected without depriving needy, without curtailing aid to farmers and without increasing taxes. In analyzing that statement Senator Harrison said:

"Behold the miracle man! He knows, or his advisers know, that in the year 1936 three-fourths of the deficit is due to expenditures for recovery and relief. To balance the budget without new taxes, it would be necessary to eliminate all recovery and relief items, and in addition, to reduce regular expenditures by a billion and a half.

"The way to balance the budget is to build up the national income and reduce unemployment. Then emergency expenditures will be reduced to a minimum and receipts will increase, not from increases in rates, but from the application of the present rates to the larger amount of income and the larger volume of business.

"Total receipts now, for the first three months of this fiscal year, have increased over the same three months in 1935 by 14 per cent, while at the same time, and for the same period, our expenditures have been reduced by 9 per cent. This clearly indicates the trend of our government finance—receipts are increasing and expenditures decreasing; and this healthy increase in governmental receipts is revealed when the revenue act of 1935 has not yet begun to produce revenue, under treasury estimates \$800,000,000 more annually will flow into the treasury."

Senator Harrison expects to be on the stump during the remainder of the campaign. He will speak in Pennsylvania, Ohio, Illinois, Missouri and Maryland.

At the earnest solicitation of many friends who know that I am well qualified to serve as Constable, I am herewith making my announcement as a candidate for Constable. It is well known by the general public that I served the City of Bay St. Louis for five years as traffic and peace officer and no one can contradict the earnestness with which I served. FIRE GUTS INTERIOR OF STORE

Blaze of Unknown Origin
Destroys Stock of Scharff's
Beach Store and Dam-
ages Spotorno Bldg.

Fire of unknown origin shortly after 1 o'clock Monday morning gutted the interior of the Spotorno one-story mercantile building on South Beach, between Washington and Citizen streets and practically destroyed the stock of Joseph R. Scharff who owned and operated a grocery store.

It was apparent the fire had been burning for a long time before it was discovered by passersby; that it originated possibly from a "wiring" that had become defective or more possibly from rats carrying combustible material.

Mr. Scharff had the store well stocked valued from an estimate of from \$2,000 to \$2500. He carried a \$1500 policy with the Merchants Insurance Agency of Bay St. Louis. The building, owned by L. N. C. Spotorno and family was damaged to an extent not estimated. The slate roof and brick walls confined the fire within, however, it finally broke through the roof and was considerably damaged. The interior ceiling walls were charred as were the fixtures and other interior equipment.

Mr. Scharff had no statement to make Monday morning but later in the week indicated that he would not re-enter the business of a second store but would confine his time and attention to his principal and original store corner Main and Toulouse streets.

Mr. Spotorno was unable to state what disposition would be made of the building. The matter was all too new and so unexpected since the structure was considered a good fire risk and far from being a fire hazard. It was for this reason no insurance was ever carried and also due to the high prevailing policy rates.

A visit to the scene of the fire next morning revealed a heavy pall hung over the situation and justly so. Here was disaster that came over night, literally speaking. From cause unknown, and undetermined. The conjecture that it might be caused from gnawing and nest-making rats or possibly from defective wiring is all very well but neither solves the cause nor replaces the damage.

And both owners of the building and owner of the business suffered losses. Mr. Scharff has been somewhat unfortunate of late as to losses, the recent robbery of cold cash from his safe is yet fresh in the minds of his friends and newspaper readers. While the thieves have been apprehended and punished, this does not restore the loss sustained.

Mr. L. N. C. Spotorno, owner and representative of the estate of L. Spotorno, says he carried no insurance on the building, for the rates are exorbitant and added to the burden of multiple taxes, making carrying charges all the more and heavier. In fact, prohibitive.

"Following a great fire that gutted out this entire neighborhood," said Mr. Spotorno, "my father built this mercantile business back in 1894, exactly forty-two years ago last March. His uncle, the late Manuel Garibaldi, had conducted an extensive mercantile business on the site for many years and that successfully. Later the old landmark with its many pleasant memories, was destroyed by fire. It was then my father built the present building and conducted therein for many a year after until his death. It was well constructed and it is for that reason it withstood the heat as well as it did that the walls remain, possibly materially damaged toward the rear where a crack had occurred some years ago and had been filled with a repair job of cement.

"We carried no insurance for the reason the building had been vacant considerably for a time and when it was occupied no return would be possible to meet the excessive insurance rate."

"Last night about 9 o'clock I smelled an odor of fire and smoke," said Mrs. Oscar Lagniel, who lives in Washington street, around the corner from the store. "The smell increased and became very acute. Soon it was all through the house. I made an investigation and after a careful search found nothing. However, the odor of fire continued but finding nothing we finally retired."

Young Mr. Spotorno could not say just then what disposition would be made of the building, if it would be allowed to stand as it is indefinitely, or would be repaired to that extent that would again make it habitable or would it be taken down.

However, it is a landmark of the place of business. As long as the memory of man runneth back it has always been known as a grocery or mercantile store. First Mr. Garibaldi, later in the original building by Mr. Lazarus Olivari, a relative, who operated it for a number of years.

WOMEN AND OTHER PROJECTS SERVE MANY IN HANCOCK COUNTY

Local Sewing Rooms Give
Many Work — Free
Lunches Soon to Be
Restored.

By Frances Griffith, Reporter,
Federal Writers' Project.
Equally as important in purpose and execution of plans as construction projects under the men's program, the Women's and Professional projects have brought health and happiness to thousands of needy families throughout WPA District Three.

Sewing Rooms Give Much Work
Sewing rooms alone besides giving work to hundreds in this district have made and furnished garments for every member of relief families from the newly born baby to the grandfather's overalls. WPA sewing rooms have made it possible for hundreds of school children to receive needed clothing and enter school this winter, some enrolling for the first time, while others are completing their senior year in preparation to going out into the world to seek their own livelihood.

Free School Lunches to Be Restored
Lunch room projects at schools which have operated during the past year have placed ruses in the cheeks and happiness in the hearts of the once little undernourished bodies of thousands of children from relief families, some of whom had only two skimpy meals a day at home. Reports from project supervisors and teachers show a marked improvement in weight, health and general school work of these children since eating at WPA lunch rooms.

At an early date these lunch rooms will reopen at the various schools in the district. It will be necessary, however, for sponsors to furnish food. The WPA will furnish the necessary labor.

This can be done by donations of vegetables, fruits or farm produce plus some cash donations for staples.

Writers, artists, musicians, research assistants and other professional workers have found employment on Federal Projects, and claim to be happy for the first time in many years. These workers are not only given an opportunity to continue in their life's work, but receive valuable training along various technical lines that will enable them to secure better positions at higher salaries outside government employment.

Eliminating Illiteracy.
The Adult Education Project has also done much toward eliminating illiteracy, and through the various vocational training courses offered under this program, many have found themselves and the things they can do best, and are fitting themselves for their rightful places in the business world.

Projects Are Educational
Through programs meeting every need of the human family, the Women's and Professional Projects are gradually building up the health, mental condition and general outlook on life of individuals enrolled on relief projects, and although the quota of workers for the district has been cut from time to time, hundreds of women, who are the responsible heads of the family, are now self-sustaining. The program has also served as a training school for workers, who, when they go out later into private employment, will prove more efficient.

Roosevelt "Pages" GOP Editor Foe On Kansas Stop

Emporia, Kan.—The talk of the town today was how William Allen White got "paged" by the President of the United States.

When the Roosevelt campaign special stopped here yesterday, the President inquired about Mr. White, "A very good friend." The editor, who is a close friend of Gov. Alf M. Landon, Republican presidential nominee, had chosen to mingle with the crowd but was pointed out.

"Make way for Mr. White," cordially shouted the president.

As photographer flashlights flared, smiling "Bill" White moved up saying, "Shoot not this old gray head." Before the handshaking ended, White invited Mr. Roosevelt to come back "when this is over" for a three-hour Kansas beefsteak dinner and Mr. Roosevelt rejoined "you come down and visit us."

CITIZENS ASKED TO JOIN UNIT

Of Local Parent-Teachers'
Organization — A Recogn-
ized and Powerful
Factor for Children

The observance of Parent-Teacher Week, as proclaimed by Governor Hugh White, October 18-24, inclusive, is bringing the aims and purposes of this great organization, the Mississippi Congress of Parents and Teachers, to the attention of all men and women of our state who are interested in the welfare of children.

The one thing in the world on which everyone, regardless of race or creed, can agree is the worth of a little child. America is committed to the ideal that every child shall have a fair start in life. The National Congress of Parents and Teachers, composed of the organized parenthood of America, is a mighty force for worthier homes, better schools, and finer communities.

Parents, teachers and citizens alike have recently recognized more fully than ever before the great power of the Parent-Teacher movement. That power can be completely and effectively turned toward creating and maintaining adequate schools, wholesome communities, and good homes.

Every citizen of Bay St. Louis is asked to enroll with the local P. T. A. and become not only a member of this local unit, but also a member of both state and National Congress by virtue of the membership in the local association, thus joining hands with approximately 2,000,000 other men and women who are working for the cause of childhood. Everything one puts into this work in time, energy, money and spirit helps to magnify the finer and richer values of our civilization.

Sumptuous Villa Of Capone's at Palm Island to Be Sold

The government gave notice this week that it will sell the sumptuous villa of Al Capone, on Palm Island, at Miami Beach, at auction next month.

The stucco mansion, the tiled swimming pool and the extensive grounds on Biscayne Bay will be sold to satisfy a federal tax lien of \$1,498.08 recently filed against the gangster's wife. The property was purchased in her name in 1928.

From then until 1932, the year he went to prison to serve ten years for income tax evasion, Capone entertained his friends there during the winter months.

In the summer, while other wealthy winter residents' villas were boarded up, the Capone home remained open. The telephone was connected, too, but the number was secret.

Revenue agents, who attempted to serve Mrs. Capone with the lien several weeks ago, reported her absent from the mansion. They said they did not know her whereabouts.

'37 MODEL CHEVROLET SOON TO BE SHOWN IN BAY SAINT LOUIS CITY

Gulf Chevrolet Company to
Show the Last Word in
Beauty and Construction

An advertisement elsewhere in this issue of The Echo announces the early appearance of the 1937 model Chevrolet, the biggest value in moderate priced cars. The new model will easily prove a revelation and one will want to possess a '37 Chevrolet before Christmas.

The Gulf Chevrolet agency announces the cars will arrive shortly and the public is cordially invited to visit and inspect the latest in cars. The management will be glad to give a demonstration and "talk over" about a prospective sale. Autos are now priced and terms so arranged that any head of a family can afford to own one. It spells economy to buy a new car frequently. Wait for the new Chevrolet.

On Wednesday, October 21st, at 2:30 P. M. another Leaders Meeting was held at Catahoula School house. J. A. Bozeman County Agent, was assisted in this meeting by Mr. Ed. Stanley, Extension Marketing Economist. Mr. Stanley's talk was both inspirational and educational, in that he brought out some of the Aims and Purposes of the Farm Bureau. He brought out the fact that through Farmers Organizations, the farmers of the United States had been enjoying the benefits from the A. A. A. to the tune of millions of dollars, but on the other hand he said that unless the farmers of Mississippi and the South generally got better organized in order to fight more effectively for the things that Agriculture is justly entitled to that almost over night the whole Agricultural policy could be destroyed.

In 1936 Mississippi leads in the production of 33 major crops over any other State in the union and under the sale of cotton and cotton seed alone the farmers of Mississippi will receive \$140,000,000. Therefore, the farmers of Mississippi should come to a realization of the fact that the increase in the price they are receiving for what they have to sell comes about through the efforts of organized Agriculture.

In order that these facts might be brought before the farm men and women of Hancock county, a series of community meetings will be held as per the schedule below:

Tuesday, October 27th, 7 p. m., Leetown school house.
Wednesday, October 28th, 7 p. m., Catahoula school house.
Thursday, October 28th, 10 a. m., Dedeaux school house.
Thursday, October 29th, 2 p. m., Kila school house.
Friday, October 30, 3 p. m., Aaron Academy school house.
Friday, October 30, 7 p. m., Flat Top school house.
Monday, Nov. 2, 7 p. m., Sellers school house.

County Agent J. A. Bozeman is making an effort to secure the services of a good speaker for these meetings, so let's come out and hear something about the great Farm Bureau Movement that is now in progress.

HOW TO AVOID FIRES.

NOW that Fire Prevention Week has passed and the people of this city have settled back with the conviction that, after all, it was just another one of those weeks, it might not be amiss to make a few reflections in the hope of saving some lives in this city during the coming winter.

Two-thirds of the fires that occur in this country blaze up in dwellings and are responsible for the loss of 7,000 lives, half of them children. Statistics show that there are eight major causes of fires in the homes: rubbish, defective chimneys, combustible roofs, defective heating apparatus, matches and careless smoking, gasoline, kerosene, electric defects and hot ashes and not forgetting the rodent hazard. Buildings infested with rats are subject to fire. The pest carries inflammable material for nesting and articles of prey. Matches are a hazard and because of the fondness of sulphur it is not uncommon to find matches carried away to secret crevices and other hidden places in stores, residences by the rat.

Householders might keep the list in mind and by taking care in regard to these dangers avoid a fire which might cause death. They should remember that individual carelessness is the greatest menace to safety, whether from fire or other hazards, and should not ignore safeguards to prevent fatal mistakes.

PRESIDENTIAL CAMPAIGN.

APPARENTLY little or no interest is manifested in the present Presidential campaign. Neither city, county nor State seems to realize a campaign is on. It reminds us somewhat of the recent city campaign here. It appears to be a cut and dried matter and no one seems to care further than that.

The campaign is now in its final stages, with both candidates and their supporters confident, and most of its history completed. President Roosevelt and Governor Landon have traveled extensively through a number of States, where party strategy dictated major appeals, and in less than two weeks the voters of the nation will go to the polls and determine who is to be the winner.

Naturally, there is much partisan feeling and men and women, under the stress of political battling, have become overwrought. They have made foolish charges and predictions. There has been some ill-feeling engendered but most of it will blow away with the count of the ballots. Luckily for the nation most of the dire prophecies will not come true, regardless of who is elected.

NONE OF OUR BUSINESS.

MANY Americans are highly concerned over reports that King Edward, of Great Britain and an American woman, the wife of a shipping man, are almost inseparable companions. The evidence indicates that the British themselves are somewhat puzzled over the friendship.

Maybe it would be just as well for us to worry about some other matters. Let the King of England alone and forget, for once, to be curious. After all, it's none of our business. One thing is certain, the popular bachelor king will never marry the commoner.

Fred Sullens of Jackson sums it well in these few words:

If Mrs. "Wally" is under the impression that she is to become the bride of King Edward she is laboring under a sad delusion. The best she can hope for is the role of mistress, and the soon-to-be-deposed husband evidently suspects she is already that.

POLITICS AS A CAREER.

WE see where the president of a college is urging young men to prepare for a career in the realm of political endeavors and the wonder strikes us that any man is willing to go through what we call in our American fashion, a campaign in order to serve the republic.

There is, of course, some element of sense in the current joint debate and Messrs. Roosevelt and Landon, while hitting hard, have, on the whole, managed to keep their campaign on a wholesome basis. The same cannot be said of their supporters.

Maybe, it is a good thing to have a campaign every four years to permit the partisans to blow off steam without having serious explosions. Certainly, after a full-fledged campaign very few statesmen will incline to the belief that they are super-men, favored by the gods.

DETESTABLE CRIME.

THE other day a man, jailed on suspicion of having mailed a bomb, which caused a death, committed suicide before he could be brought to trial. This reminds us that the United States, as a rule, has been free from such dastardly acts although occasionally some depraved mind plots vengeance through such a crime.

It is hard to understand the workings of a mind, so inflamed against another, that it is willing to take the chance of killing innocent people through the premature explosion of a bomb or the accidental opening of an innocent-looking package by some one besides the intended victim. We would rank the offense close to kidnapping and the punishment for those found guilty of the practice should be most severe.

DISTORTING HISTORY.

BECAUSE of the fascination of movie productions that engage the average mind comparatively little or no attention is considered to their authenticity of historical data.

It has been pointed out not infrequently many movies carry scenes, incidents and contact that are so highly inconsistent as to provoke justified criticism. But the fact a fur coat might be used in a supposed summer clime or other examples of the kind are nothing compared to the license taken with history and figures that lived during the various periods. This is the serious criticism. A production that is inaccurately portrayed is misleading and of misinformation to the young.

Now comes a criticism of one of the newest and prominent productions. Fred Sullens of the Jackson News, finds the film filled with inaccuracies, as most people who have viewed the picture already know. The inconsistencies and inaccuracies are so glaring that the average person cannot but see without some one revealing to their mind the gross liberties taken with the film, "Gorgeous Hussy." Here is one where history is distorted beyond reason. Organized move by the churches and other moral forces gave cleaner pictures and possibly better films. Now we will have to wage a war for films that neither distort history nor misrepresent characters who have immortalized themselves in the minds of generations and the printed word.

Mr. Sullens says probably you will see the picture at some time in the near future, if you haven't already. If you do, please bear this in mind:

1. Peggy O'Neale had a son and two daughters by her first husband, John Timberlake, a pursuer in the navy.

2. Timberlake's death at sea was believed to have been suicide, provoked when he learned of his wife's relations with Senator John Eaton, of Tennessee.

3. This was a scandal that broke in Washington when Peggy afterwards married Eaton, and the latter became secretary of war, breaking up Jackson's cabinet.

4. The name of Peggy O'Neale does not appear anywhere in the autobiography of John Randolph of Roanoke.

5. John Randolph died of tuberculosis, not assassination.

6. After Eaton's death in 1856 Peggy married an Italian dancing master, who subsequently cheated her out of her property and eloped with her granddaughter.

However, makers of movies care nothing whatever for the facts of history. They would alter any important chapter of the Bible, if in the opinion of some dumb-headed director or script writer, it would make a better story.

SAFETY ON THE HIGHWAYS.

SELDOM does a citizen take a long automobile journey without coming home with some story of danger as he tells how he narrowly escaped injury when another vehicle forced him off the road or barely averted crashing into his car.

The fact is that something must be done about highway accidents but nobody knows what should be done. Should high speed automobiles be outlawed? Few people agree that this would be the right remedy although most of them acknowledge that speeding is the cause of most accidents.

Of course, one way highways would cut down the accidents but the cost of such a system of roads is prohibitive in many areas. Rigid enforcement of all traffic regulations would also help but, too often, the highway patrolman is not available because of the simple truth that he cannot be everywhere.

One contribution to safety on the highways, however, can be made by every motorist. You can obey the traffic regulations, observe warning signs and drive courteously at all times. This is what everyone of us can do to assist in meeting a dangerous situation although the objection immediately comes up that all the care possible will not save a considerate driver from a fool on the roads.

Beware of the one-eyed motor car by night. This may be seen any night on the streets of Bay St. Louis and every night between this point and Gulfport, and possibly further. The driver of a one-eyed motor car seems to be immune from arrest. He is a most dangerous factor in the cause of automobile accidents.

LET'S START THEM RIGHT.

THERE was a day when every young American was assured that he had a chance to become President of the United States and, if he failed, that, at the worst, he would probably make a million dollars.

The result of this teaching has probably been evil. The generations that have grown on such notions have been inclined to grab for themselves and get all that the law allows and some of the fruit that the law prohibits.

It is about time that education include the idea that an individual attains satisfaction, not by getting everything or the highest honors, but by serving society in his or her place with distinction. The development of men and women into intelligent creatures, with an understanding of man and nature, is a task that most of us complete late in life, if at all. Maybe, by starting early with the youngsters we could help them attain a greater goal earlier in life, and that, we admit, is what life is intended to accomplish.

CIRCUS BUSINESS GOOD.

WE have seen a great many statistics, telling about good years for this and that endeavor of men and women, and it seemed that almost every economic enterprise was making some progress. However, we overlooked the circus business but are now reassured by the statement of a circus manager that 1936 has been a "great year." With the tented institution enjoying good business we may hope for better and bigger circuses in the future and our children will be surprised, no doubt, as they have been in the past, by the willingness of their elders to take off a half a day when necessary to accompany them to the big show. One of the major circuses recently visited New Orleans and it was no secret the visitation not only "cleaned up" as the saying goes, but the patronage was highly profitable for the reason each show was presented to record crowds, the kind that had not assembled since several years back.

WHAT THE PRESS IS SAYING OF MEN AND MATTERS IN EDITORIAL EXPRESSION

THE OTHER SIDE OF THE DAMAGE RACKET.

(Gulfport Guide)

WE are all too prone to see only one side of the damage suit racket.

This editor knows of a hand-drawn map that was shipped by express upon which was committed a nuisance in transit. The claim agent chewed the rag about a ridiculous settlement of the claim for months.

He also knows of a car collision in which the insurance company for the party at fault has had all the facts, but sits smug awaiting a legal procedure that could be spared by a minimum satisfaction for a damaged door and fender.

The insurance companies do a lot of griping about uncalled for damage suits.

They could contribute much to the solution of this serious problem if they would do the decent thing, and do it quickly. That's the other side of the

PASS CHRISTIAN VOTES FOR SPENCE FOR MAYOR AT ELECTION TUESDAY

Receives Majority of 67 Over Opponents—Second Primary For Other Candidates—News Notes And Comments.

Correspondence Sea Coast Echo.
Mayor James H. Spence was nominated for mayor in Tuesday's Democratic primary in Pass Christian, receiving a majority of 67 votes over his two opponents, Mayor D. G. Rafferty, incumbent, and John T. McDonald.

Unofficial returns gave Spence 330, Rafferty, 147, and McDonald, 116. Dr. Spence has held the office previously.

Other results were:
Town Marshal—William F. McDonald, 238; George J. Cronovich, 185; Levi Sprinkler, 108.

Alderman, First Ward—Herbert H. Hanson, 64; Frank Epperson, 50.
Second Ward—P. A. McCollister, 123; W. T. Wood, 115; Ferdinand Martin, 31.

Fourth Ward—Bernard Hayden, 45; James Smith, 14.

McDonald and Cronovich for marshal and McCollister and Wood for Alderman in the Second Ward will call for a run-off.

John Farrell for alderman of the Third Ward, Martin Farrel for clerk and Joseph Wittmann for alderman, third ward, were renominated without opposition.

Pass Christian's handsome theater, with its highly-cushioned and comfort chairs, its clear sound effects and perfect visualization attracts many out-of-town people as well as the local population. The brand new theater is of that type of delightful yet conservative color that makes the interior as the more attractive. The handsome Neon sign is the outstanding advertisement and serves as a distinct contribution to the forward march of the city.

Now is the time for planting many things. None the least of these is winter lawn grass seed. The Loraine Flower Shop has a fresh and abundant supply of the new seed and compared with printed figures from out of town stores their seed sells for considerably less. It is quite an invitation and inducement to plant winter grass and have a gorgeous front yard lawn for Thanksgiving and Christmas, meaning so much and costing so little—if you buy fresh and better seed at lower price from the Loraine Shop.

Loraine Flower Shop, as usual will be headquarters for flowers for All Saints' Day. Chrysanthemums, carnations, roses, etc., will be in vogue. Adams always have an ample and varied stock to select from. And there is always dependable delivery. For All Saints' Day needs see Mr. and Mrs. Adams at the Loraine Flower Shop, Pass Christian. Bay St. Louis trade solicited and taken care of.

Mrs. Leo McDermott, who has been ill since August, confined to her bed is doing better. This will be satisfying news to the friends of this excellent young couple, Mr. and Mrs. McDermott.

It is expected work will be shortly resumed on Pass Christian sand beach and inner harbor, so auspiciously begun some time back. The Harrison county board of supervisors this month appropriated \$20,000 additionally for the work. Bids for this extra and continued work will be opened November 16, following the period required for advertising for bids.

Miss L. C. Del Bondio and Miss Marie E. Bertrand have issued invitations to Pass Christian and Bay St. Louis friends for a "beach party," to be given on All Halloween, a novelty for the occasion that will be thoroughly enjoyed. Should the

weather be unfavorable for a beach party the paraphernalia for such an event will be removed to a portion of the spacious home that will prove well adapted for the purpose. Misses Del Bondio and Bertrand's parties are always a signal for a most charming evening.

Pass Christian continues receiving the plaudits of the public on the occasion of the three-day convention of Council of Catholic Women, held at the Miramar Hotel, and at which banquet on the evening of the session Miss Eleanor Patenotte was hostess. About 150 attended the banquet with its interesting program, which included a musical number from the Schubert Music Club, of Bay St. Louis. Natchez captured the convention for next year. Surely, year after next the organization will want to come back to the Coast.

ESTIMABLE WOMAN FOLLOWS HUSBAND TO GRAVE BY TWO WEEKS

Mrs. Frank Joseph Taconi
Laid to Rest Sunday Afternoon in Cedar Rest.

Following her husband in death by two weeks, Mrs. Frank Joseph Taconi, born Rose Bares, died at the family home in St. John street, Bay St. Louis, Miss., Saturday, October 17, 1936, 5:05 a. m., after a long and lingering illness.

The funeral took place Sunday afternoon from the late residence with Catholic church ceremony and interment in the family plot at Cedar Rest cemetery.

Mrs. Taconi is survived by one brother, Bertrand Bares, a resident of New Orleans, of which city she was a native, and had been a resident of Bay St. Louis the past forty-five years or more. She was 71 years of age at the time of her passing.

Marrying Mr. Taconi shortly after she came here, Mr. Taconi built the home in St. John street in which both passed away and ever since that time had lived continuously in the same and one house. Their union was a most happy one. They had no children but lived down the long span of years in the happy intended manner in which the marriage was instituted. Both were devout members of the Catholic faith; their every day lives were exemplary; they had lived long and useful lives and it may be said they had lived as God intended.

The funeral was largely attended and many flowers as messengers of sorrow and sympathy to the bereaved as a mark of tribute to the memory of the departed one designated the lasting resting place.

KILN SCHOOL ASKS FOR FEDERAL MOVIE FILMS FOR CLASS

Mississippi Planning Commission Announces Kiln On List Requesting Free Picture Service

Installation of modern motion picture equipment in the schools of Gulf Coast Counties through the co-operation of the Mississippi Planning Commission will enable the inauguration in the near future of visual education courses to supplement the work of the institution, it was revealed this week.

Kiln To Install.
Superintendents R. L. Russell, of Kiln High School, and C. E. Veis, Jr., of Vancleave Consolidated, announced they had received word from Director Joe Folse of the Mississippi Planning Commission that their applications for motion picture machines, including modern sound equipment, were included in 21 recently approved.

Immediately upon installation of the equipment, educational films of federal and state departments on subjects including forestry, agriculture, conservation, wild life, resources of the state and nation, engine ring, history and phases of modern day activity will be available to be shown which may be presented.

Officials also plan to use films prepared by leading educational film organizations, such as the Harvard Film Service, to augment regular courses now being taught in the schools.

It was also pointed out that under the plan, communities may receive the benefits of the theater through the presentation of wholesome entertainment film programs from a select list of Hollywood productions.

Professors Russell and Veis plan to present at frequent intervals entertainment programs for the benefit of the community, with proceeds from a nominal admission fee to be charged used to meet the small monthly payments on the machine.

Other state schools whose applications for visual education equipment have been approved include those at Macon, Brandon, Tchulokatchie, Soso, Liberty, Progress, Ruth, Nokapater, Inverness, Tremont, Catchings, Independence, Uffa, Forrest Hill, Horn Lake, Enid, Kilmichael, and Sebastopol.

"RHYTHM ON THE RANGE" IS FUN-FILLED MUSICAL FILM

Music, Comedy Blend to
Make Hit—At A. & G.
Theater Sunday and
Monday

By all odds the most tuneful, most amusing and most unique of the films to feature Bing Crosby, Paramount's new rollicking musical "Rhythm on the Range," which will open Sunday at the A. & G. Theater, provides a balanced program of song, comedy and romance unmatched by any recent screen offerings.

Introducing Bob Burns, drawing Arkansas maestro of the gas-pipe bazooka, for his first important movie role, "Rhythm on the Range" casts Frances Farmer opposite Crosby and surrounds the trio with a score of the best talent in films.

Plot Is Unusual
A brief outline of the story serves to indicate the general comedy slant of the fast-moving musical romance. Crosby and Burns are cowboys who take part in a Madison Square Garden rodeo in New York. Crosby, with his rodeo winnings, buys a prize bull and starts with the animal for his home ranch in Arizona, aboard a box car.

"Burns, always accompanied by his bazooka, heads for the same location aboard a passenger train.

Frances Farmer, wealthy society girl, flees a scheduled marriage and stows away aboard Crosby's box car, hoping to reach the ranch operated by her aunt, Lucille Webster Gleason, who is Crosby's employer.

Trio Make Trip
Bull, girl and cowboy make their way across the continent by box car on foot, and by auto and trailer. En route, romance blooms.

Meanwhile, Burns has been stormed by Martha Raye, comedienne with a rubber face and a line of insane nonsense who makes her film debut in this picture. Their romance, too, grows as the miles fall away.

Adding another touch of humor to the plot are the exploits of Warren Hymer, George E. Stone and James Burge, a trio of thugs who trail Crosby and Miss Farmer—intent on kidnapping the girl and holding her for ransom.

Music is provided by everything from the Burns Bazooka to the hot swing band presided over by Louis Prima.

Refreshing Relief When You Need a Laxative

Because of the refreshing relief it has brought them, thousands of men and women who could afford much more expensive laxatives use Black Draught when needed. It is very economical, purely vegetable, highly effective.

Mr. J. Lester Robertson, well known hardware dealer at Marshallville, Va., writes: "I certainly recommend Black Draught as a splendid medicine. I have taken it for constipation and the dull feelings that follow, and have found it very satisfactory."

BLACK-DRAUGHT
Solely for medicinal purposes, it is a powerful laxative, and is the only one of its kind that is purely vegetable and non-habit forming.

LETTERS FROM THE PEOPLE

DISCUSSING A SITUATION OF
REAL ESTATE AND UPKEEP.
New Orleans, La., Oct. 19, 1936.
Editor Sea Coast Echo:

I came out from New Orleans the early part of last summer with a view of purchasing a home for myself and family to be occupied for the summer months and probably for week-end visits during the mild winter. It was impossible to purchase anything for I found the class of houses I was interested in, beach and side street locations were run down to a condition almost beyond repair.

You people "over the lake" seem to know little or nothing of the value of paint and general up-keep of property. I found more houses in need of paint, decayed fences and neglected outhouses, sanitary appliances, if any, anything but sanitary. The thought struck me how could a man be expected to leave a comfortable home in the city to move out to the country or coast and put up with such inconveniences and incongruous looking places when one had so much better at home.

Further solicitation on the part of myself and son, I found it would be cheaper to rent and further finding out the amount of excessive taxes, cost and water, etc., that rents were suspiciously cheap. Suspicious of the reason that how could a landlord have to pay so much overhead and counting his investment at a 4 or 6 per cent return ask for so little rent. Then I saw why property was not kept in condition; why the upkeep was neglected.

Then it occurred to me the community, county or state was practicing a poor business policy. That because of heavy overhead one was forced to neglect the very asset which arises from the condition in which one keeps his house or houses. It is poor business to over tax a man to the extent that he is unable to maintain values. For in the last analysis value would decrease correspondingly to the intrinsic value of the place.

Rents are too cheap in Bay St. Louis. That is if a place is properly maintained. It might be well for the landlord to better maintain his premises and in turn ask for commensurate rent. The trouble is the average house rent is terribly run down and low rents follow. All of which is unsatisfactory to the landlord and tenant and finally to the community which, after all, has as its potential base of revenue, the value of improved realty.

No town will prosper to a permanent basis where the cost of owning forbids proper maintenance. It is very well to build but it must ever be borne in mind that it costs money to own property, to have and to hold. And that it requires the collecting regularly of adequate rent payments.

This is quite a problem, simple as it may appear, but nevertheless one of serious aspect and it is going to take some good thinking, a good mind and an effective application of the remedy to come out of a slough of ailing conditions.

Yours for lower taxes and more improvements.

MRS. HUBERT DE BEN IS VICTIM OF AUTO SHOCK IN NOBLEANS

While Traveling Seated On Rear Section of Auto Sustains Injury.

Mrs. Hubert de Ben, well-known resident of this city, is at Baptist Hospital, New Orleans, under observation and treatment to determine just to what extent she was injured while recently traveling in an automobile of a lady friend near New Orleans on O. S. T.

Mrs. de Ben was seated in the rear section and with the sudden motion of the car, it appears, her body bounced upward. Striking the 'ceiling' of the car her head received a severe impact. At the time it was very painful. First aid attention and palliative treatment gave her comfort after recovering from the first shock of the jolt. However, after she was home a day or more, it developed that she had sustained a painful injury. The back of her neck and shoulder became painful and finally she was taken to New Orleans for x-ray examination. While no detailed report was available at this time, it is understood she suffered an injury to the vertebrae but to what extent is not known.

Since the above was set in type Mrs. de Ben returned home Wednesday evening and is confined at her home Beach Boulevard. A fractured vertebrae and injury to her right shoulder causes a painful situation, with her neck and head set in brace, supported by a frame from the back of the bed.

David Conner Presents Map of County to Historical Research Project.

The State director in commenting on the work says "It is truly a remarkable piece of work for so young a child. In fact it would be creditable for a grown person and beyond the capacity of many adults." The map will be exhibited to the public when the Hancock County Historical Research Project completes the exhibit it is planning.

Mobile Residents Ask For Reduction Rate To Water Flowers.

There has been a general gnashing of teeth since the city of Mobile levied a sewerage tax, thus indirectly increasing water rates approximately 50 per cent, several months ago.

The League of Women Voters asked that the tax be revoked so housewives could water their flowers without thought of the financial result. Some of the flowers, especially azaleas, have actually suffered because of the tax, the organization declared.

The sewerage tax was levied for refunding purposes.

Bickering Back in Politics Of Louisiana Group.

Old-time factional bickering—the kind the late Huey Long put an end to—was back in Louisiana Monday.

The Rev. Gerald L. K. Smith, organizer of Long's Share Your Wealth clubs, took time out from his adventures in national politics to come to New Orleans and label Governor Richard Leche a "betrayer" of Long's ideals.

He said Leche put a "luxury" sales tax on the people, the kind of tax Long always opposed, and then "sold out Louisiana" to President Roosevelt, Long's "worst enemy."

Soliciting Aid For Family, Victims of Fire

The Echo is in receipt of the following communication, asking for aid for a family that has lost their all by fire. Here is an opportunity to do a good deed, to help victims of a cruel fate.

"Editor of the Sea Coast Echo, will you kindly help? I am asking for assistance for Mr. Edwin Ladner, who lost his home by fire on the night of October 13. Nothing was saved. There was no insurance. "He has a family of five little girls, ranging in age from eighteen months to seven years. Anything one may give will be very helpful and thankfully received and as well appreciated. If anyone having old clothes, quilts, blankets, sheets, sacks from which to make clothing, pots, pans, dishes or anything it can be used by the family left in a most destitute condition. These things can be left with Mrs. J. W. Jacobs or with the Sea Coast Echo and I will call for them. Yours for help, Mrs. Lillian Ladner." Don't forget the five little girls.

TO CONTEST THE PASS ELECTION

Petition Charges 'Bribery And Intimidation—Law Violated, Alleged.

Mayor D. G. Rafferty and Captain John T. McDonald, candidates for mayor, who were defeated by J. H. Spence in last Tuesday's election at Pass Christian, were among candidates who signed a petition before the Pass Christian Democratic executive committee requesting a hearing to contest the primary on grounds that it was conducted in violation of the state's Corrupt Practices Act. W. S. Jones, candidate for city tax collector, and Frank Epperson, candidate for alderman of the First Ward, also defeated on the face of the returns, were the others whose names appeared on the petition.

The petition charged that the successful candidates in the recent municipal primary "procured their majorities by use of methods contrary to the State Corrupt Practices Act," and charged further that these successful candidates practiced "bribery, intimidation, promises of employment, unless a voter should vote as directed."

No date has been set by the committee for a hearing. The new State Corrupt Practices Act only applies to primary election and not to general elections. Law is very specific and exacting.

WHEREABOUTS OF MARK OLIVER REMAIN UNREVEALED TO DATE

Possibility Is Repeatedly Suggested He Might Surrender to Parchman State Farm.

The whereabouts of Mark Oliver still remains unannounced with no clue or conjecture as to where he may be holding out against the authorities that are seeking him. However, as officers and other officials work, the quest continues in silent but active manner. Several probabilities and possibilities as well as being worked with the hope of affecting the desired capture. It will be remembered Oliver had surrendered on the night of Wednesday, October 14 to county officers whose jurisdiction are not such as to have arrested and taken him into custody, especially since they had no handcuffs nor any means of forcibly holding him, being unarmed. It was while waiting for a proper officer to arrive and make the arrest that Oliver silently and unobservedly quietly edged out into the darkness of the night and escaped from the automobile in which he had arrived, accompanied by members of his family and others.

Many rumors as to his whereabouts are current, but vague and born of individual opinions. However, the thought is repeatedly offered and the theory of such possibility is advanced that in due time he probably will present himself to the penitentiary farm warden at Parchman, to which place he was recently sentenced by Judge W. A. White of the Circuit Court of Hancock to serve a term of five years, charged with having participated in the holdup of a local grocery owner and operator and escaping with others with a loot of several hundred dollars in cash.

The possibility that he will surrender at Parchman is repeatedly advanced. However this is rumored and carries no credence.

ROBBERY OF SCHOOL TYPEWRITERS TRACED; THREE ARRESTS MADE.

Machines From Various La.-Miss. Schools Found at N. O. Typewriter Exchange.

Detectives at New Orleans finally traced and ran down two men in custody who are charged with committing the series of robberies of typewriters from various Louisiana and Mississippi schools which included the theft of ten typewriters from Bay St. Louis Central School, in all, including 36 machines.

The men under arrest, charged with grand larceny, are Frank Jack, 32, of 1138 Carondelet Street and Warren Singletary, 1226 Baronne street.

Typewriters were traced to the Smith Typewriter Exchange, 415 Baronne street, New Orleans, Oral Smith, owner, who is under bond for having stolen property in his possession.

A visit to the exchange on the pretext of making a purchase it was discovered that one or more machines bore the serial number of machines stolen and the charge and arrest followed.

While only a relatively small number of the stolen machines were discounted for. It is charged these machines were sold. N. O. Police Supl. George Reyer through the press requested all persons who bought or rented typewriters from the Smith Exchange to return them at once or place themselves liable to a criminal charge of having stolen property in their possession. In this wise it is expected every machine missing will ultimately be accounted for.

At Bay Central School. It will be remembered one week-end recently ten typewriters were found missing from classrooms on opening the school on a Monday morning. One machine, in the superintendent's office, remained. The loss was valued at \$1,000.00. The matter was at once officially reported and the police in various nearby cities were apprised of the theft.

CLERMONT RESIDENTS RETURN FROM TRIP TO MONTERREY, MEXICO.

Mr. and Mrs. R. W. Ortte Enjoy Trip Thru Texas Over Into Foreign Atmosphere.

Mr. and Mrs. R. W. Ortte, who reside in Clermont Harbor, where the former is in business, returned home this week from a most interesting auto trip which took them thru Texas, down to Laredo and over into Old Mexico as far down as the ancient city of Monterrey.

"We found remarkably good roads all thru our long journey," said Mr. Ortte on his return. We went by way to Houston, Alice, and Victoria, Texas, and finally reaching Laredo, U. S. A., we made the proper federal government arrangement to cross the border. Reaching Laredo, Nuevo Llan, Mexico, just across the Rio Grande, we at once plunged over into an entirely foreign atmosphere. The transition was very sudden and so complete that one can hardly realize it. Here we were met by immigration officials and medical men of the government as well as the agriculture representatives also gave our belongings the once-over to make sure we were not carrying any disease-laden vegetation over into their country.

"Our chauffeur, a colored man, we had to give a cash bond for his return to the States. It was necessary to vouch for him for the reason no colored people, we are told, are allowed in Mexico, that is, none are allowed to be imported. And while on our trip we saw none. We had the proper passports, etc. for our selves and converted a certain amount of our good American dollars into Mexican silver and paper getting approximately \$3.57 for every one of our own dollars.

"The auto road to Monterrey from the U. S. Border, about 150 miles, is as perfect as any hard-surfaced highway in America. It was not only a beautiful and interesting trip but one of delightful traveling. The scenery became more engaging as we traveled deeper into the country. Soon the mountains appeared and we had to encircle several many times before we could get over the high places. There are smart pieces of road engineering in order that we were able to get over the high places, and some of the bridges were outstanding accomplishments. We reached Monterrey and it was no trouble to locate ourselves, even though no one spoke English. We were soon located at the beautiful and sumptuous Regina Tourist Court, each apartment so home-like and equipped and arranged for comfort. The price was reasonable and located practically in the city it was very convenient. We visited several places on side trips, the principal trip was to Saltillo, where the altitude is so much higher than Monterrey and the climate comfortably cold. Here are located many industries, where basket

Dr. Riley Burnett, president Biloxi Rotary Club, was the principal speaker before the Bay St. Louis Rotary Club Wednesday noon at Hotel Weston, when he complimented the local club on its rapid stride, gaining ten new members—the past week and more prospects for next meeting. John Beggs, secretary of the Biloxi Club, was also a program speaker and as secretary of the club gave a talk of value and interest as the preceding speaker. Biloxi was also represented at the same meeting by Ed. Tardy of Biloxi, who has the outstanding record of not missing a weekly meeting of Rotary for fifteen years. His talk was of interest.

President Norton Haas made a few fitting remarks. Secretary R. de Montluzin, Jr., active and efficient, received the members and guests at the entrance of the Sun Room where the weekly luncheon and meeting is held.

Each week a delegation from some club along the Coast will be present to address the local group. It was voted to hold the meetings in future from 12:05 to 1 o'clock.

making, blanket weaving, pottery manufacturing and so many things that are distinctively Mexican and cannot be had in this country. "Because of no duty with many places of Europe we found many imports. The shops and stores are bright with beautiful and unusual articles at prices far below in the States. Perfumery, imported from Paris, is just about half if not less than that in the States.

"For a relatively short trip it is the one to take for something different and surely your money's worth. Returning we found the government officials on the U. S. side quite different and exacting and we necessarily went through a lot of red tape, but the customs officials and others were courteous and it was no trouble whatever."

"It felt pretty good to be back in the good old U. S. A., that's good enough for you and for me."

SPECIAL TRIBUTE TO THE DEPARTED TO BE OBSERVED SUNDAY, 1.

Custom of Decorating And Visiting Graves Will Attract Large Throngs

November 1 falling on Sunday that day of the week will be All Saints' Day, when the majority of population is at leisure and the custom of visiting the cemetery and pay one's respect to the memory of the departed will be observed by larger number of visitors than on any other day of the week.

The custom of All Saints' Day as it applies to decorating graves of loved ones and visiting the various cemeteries as a gesture of love and remembrance is one that is old and university observed in this section of Louisiana, Mississippi Coast and that territory including Mobile, seemingly a custom descending from the Spanish and French.

Visitors to the Bay St. Louis cemeteries Sunday will find both "cities of the dead" in fine order. Clean-up squads and individuals have been busy for some time past and telling results accomplished. Cedar Rest, with its wealth of greenery and many cedar trees presents a lavishness of nature's beauty.

There has been noticeable change at St. Mary's Cemetery. The hallowed precinct has never presented such orderly appearance and it will show to advantage Sunday.

This cemetery, established by the Catholic parish, under the direction and initiative of the then pastor, the late Rev. Father Henry LaDuc, was established in 1872, according to records of the church. The various handsome tombs have been renovated, that of the Italian Society has undergone a thorough beautification and other places protected by permanent copings show equal attention.

Weather permitting great crowds will throng both cemeteries throughout the day and flowers of rare beauty will mark the resting places of the many who have gone before. The usual Catholic ceremonies will take place during the afternoon hours.

BELOVED PASTOR OBSERVES BIRTHDAY AT DELISLE SUNDAY

Receives Messages From Rome—Incident on Occasion of Visit of A Cardinal

Born in his beloved France October 25, 1869, from St. Sorin, pastor of the Church of Our Lady of Good Hope, at Delisle, across Bay St. Louis, quietly celebrated his 67th birthday Sunday.

On this day the Catholic church observes the day as the feast of Christ the King, and it was doubly gratifying to the sainted parish priest that his natal anniversary fell on the same day, a privilege as he indicated in his modest and retiring manner.

For this day the church altars were decorated with many flowers and the electrical illumination over the main altar and sanctuary was turned as occasion required.

The good father was generously congratulated by his parishioners and other friends and messages from other places were received.

Recently completing the fortieth anniversary of his pastorate at Delisle, he received many messages from various sources over the country, including high dignitaries of the church. These congratulatory messages continue to reach him.

Only a few days since he received one from Rome, from Cardinal Fumasoni-Biondi, who some years ago on visit to St. Augustine's Seminary in Bay St. Louis, visited at Delisle. Father Sorin is justly proud of the various messages and particularly this one from Rome.

The visit of the distinguished churchman was unannounced and created quite a surprise. Father Sorin was busy at the time in his garden planting onions; his trousers upturned and covered with cotton seed meal which he was using at the time for fertilizing purposes. After recovering from the "shock," as the Father expresses it, he was prevailed upon to sing. His splendid baritone voice soon resounded within the church walls to the strains of an "O Salutaris," possibly one of Father Sorin's own compositions. He has several masses and other compositions to his credit, all published and on sale over the country.

We unite our wish with that of others, that he may see many more such anniversaries as last Sunday and enjoy a continuance of the happy years spent in the love and esteem of the good people who live over a wide territory covering two counties and adjacent to the church of Our Lady of Good Hope and the nearby rectory in a primeval forest of oaks.

Although a college event it serves as well as one of community interest and Bay St. Louis and vicinity will celebrate Homecoming Day at St. Stanislaus next Sunday, November 1.

The trek of the alumni and parents of present students will again assemble and conclude a day's program on the campus for the big celebration. The event is always the signal for many visitors from Louisiana and elsewhere on that day.

Homecoming is an annual affair and dates back to 1925 when the first one of its kind was inaugurated by Bro. Peter, president, now head of the institution at Baton Rouge.

The banquet will consist of serving barbecue viands in the dining hall and during the afternoon hours a football game will occur on the campus, where the day's activities will come to a close. The contest is to be between the strong squad from Commercial High of New Orleans and the Varsity of S. S. C. This forthcoming game is most promising and will attract many.

The program of the day will be as follows:

9:00 A. M.—Arrival of the train at Bay T. Louis and march to the College accompanied by the band of the college.

10:00 A. M.—Holy Mass in the Parish Church.

11:00 A. M.—Registration in the College library.

12:00 M.—Barbecue Lunch in the Dining Hall.

2:30 P. M.—Football Game with Commy High on the college green.

6:00 P. M.—Au revoir. It is also planned to have several meetings of the members of the Alumni both together and in separate classes if the number who come justifies. Many have already signified their intention to come. Circulars and cards were sent out to all patrons of the school and to members of the alumni and a gratifying response has been received.

Navy Day at Bay High School Marked By Feature Program.

Tuesday was Navy Day and the Senior Class of Bay High School sponsored a special program for the day. Capt. E. O. Yellott, Chief Electrical Division, U. S. N., at New Orleans, motored out and was the chief speaker. This splendid address by the Captain who is so well posted, was followed by a four-reel motion picture, scenes depicting many branches of the navy in action: men in training, in action and many travel scenes. In addition to the student body several parents and friends of the school were present and the Bay St. Louis Navy Day program, sponsored by High School Seniors proved a patriotic gesture of marked success. The Seniors are to be complimented on their patriotism.
